

Contract Award Notice

A Contract Award Notice is how a public sector buyer formally advertises that a contract award has been made.

All Scottish public bodies must publish their Contract Award Notices on [Public Contracts Scotland](#) (PCS) for their regulated procurements. Regulated procurements are all contracts with an estimated value of £50,000 or above for goods and services (excluding VAT) for goods and services.

Buyers can also publish Contract Award Notices for unregulated procurements, if they choose to do so. Unregulated procurements are contracts with an estimated value below £50,000 (excluding VAT) for goods and services. These may be procured through Quick Quotes or a call off from a [Framework Agreement](#).

How to Search for Contract Award Notices on PCS

1. go to the Search Notices area of PCS:

You should try a few different combinations of keywords as buyers may use different keywords to describe opportunities.

You can use Contract Award Notices to help you to [Understand the Market](#).

Through a Contract Award Notice you will be able:

- to see who has been awarded a contract. If it is a large contract you could contact the winning supplier to ask about sub-contracting opportunities
- find the CPV codes which the buyer has used and add these to your [PCS Alert and Supplier Finder Profiles](#). This will mean that you are alerted to (and possibly invited to) tender for similar opportunities in the future

Quickfire Guide

Quickfire Guide

Contract Award Notice Contents

The Contract Award Notice contains the following useful information (this is not an exhaustive list):

Contact Details	the name and contact details of the lead buying organisation
Entitled Public Bodies	which public bodies will be entitled to use the contract (particularly if the contract has been placed on behalf of a group of public bodies)
Contract Description	a description of the goods and services being purchased
Geography	the geographical place(s) the contract services
Duration	the duration of the contract, including any possible contract extension periods
Value	the estimated total value of the contract. This should include all lots and any optional extension periods
Commodity/Service	the main commodity or service being procured e.g. IT equipment, and any other items which are not covered by the main category
Procurement Procedure	the procurement procedure that was followed

Timescales	the contract award date and the duration of the contract (including any possible contract extension periods)
Criteria	the criteria against which the contract was awarded i.e. how it was scored
Supplier	details of the winning supplier(s)
